RE: Request for Waiver

Dear FCC Staff:

In filing our 470, for filing year 13, 2010-2011, we had signed multi-year contracts for web hosting and long distance voice and fax service. Because of this, I did not have to file a 470 for filing year 14, 2011-2012. In an error on my part, I mistakenly thought that since I had multi-year contracts, that we didn't have to submit 471's either for those services. I realize that this is in fact an error on my part. In filing our 486's for other services, I discovered my error. I am submitting this request for waiver, asking if you will allow the Burgettstown Area School District to submit the two 471's that I had missed? And then in turn, I would be able to file the 486's.

With the state of the economy right now, all districts are receptive of any funding that comes their way. The money brought into the district, by e-rate filing, is funding that is needed by the district. Those monies help lessen the burden of monthly bills. E-rate makes it possible for our district to advance technologically, instead of falling behind. That is something that no school can afford to do today.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Jamie O'Donnell", with a large, stylized loop at the end.
